Getting Started

Admin Dashboard Access

As an Admin, you have access to:

Dashboard: <https://adplatform.example.com/dashboard/admin>

Key sections:

1. **Users** — View all accounts, manage roles, suspend/activate
2. **Teams** — Manage team structure and member permissions
3. **Organizations** — Configure company-wide settings
4. **Audit Logs** — View all platform activity and changes
5. **Billing** — Monitor usage and costs
6. **Security** — Manage API keys, OAuth apps, webhooks
7. **Reports** — Custom analytics on account health

Admin Permissions

As an Admin, you can:

- View all users and teams
- Create, edit, suspend accounts
- Assign and revoke roles
- Manage team access and permissions

- View audit logs
- Configure organization settings
- Manage API keys for service integrations
- Override campaign settings (if needed)
- Reset passwords
- Delete accounts and data
- Access billing and usage reports

Admin Responsibilities

Your role includes:

1. **User Support** — Help users reset passwords, recover accounts, troubleshoot access
 2. **Compliance** — Ensure data is handled per GDPR, CCPA, and local privacy laws
 3. **Security** — Monitor for suspicious activity, manage API keys, review logs
 4. **Team Organization** — Invite members, assign roles, manage permissions
 5. **Audit Trail** — Maintain records of who did what and when
-

User Management

View All Users

Dashboard: Admin → Users

Or via API:

GET /api/v1/users?page=1&limit=100&role=all

Response:

```
{
  "success": true,
  "data": [
    {
      "user_id": "user_123",
      "email": "advertiser@company.com",
      "full_name": "John Advertiser",
      "role": "advertiser",
      "status": "active",
      "created_at": "2026-04-01T10:00:00Z",
      "last_login": "2026-05-17T14:30:00Z",
      "company": "My Ad Agency"
    },
    {
      "user_id": "user_456",
      "email": "consumer@example.com",
      "full_name": "Jane Consumer",
      "role": "consumer",
      "status": "active",
      "created_at": "2026-03-15T08:00:00Z",
      "last_login": "2026-05-16T09:45:00Z"
    }
  ],
  "pagination": {
    "total": 5432,
    "page": 1,
    "limit": 100,
    "pages": 55
  }
}
```

Search Users

```
GET /api/v1/users?search=john&status=active&role=advertiser
```

Searchable fields:

- Email
- Full name
- Company name
- User ID

Get User Details

```
GET /api/v1/users/user_123
```

Response:

```
{
  "success": true,
  "data": {
    "user_id": "user_123",
    "email": "advertiser@company.com",
    "full_name": "John Advertiser",
    "company_name": "My Ad Agency",
    "role": "advertiser",
    "status": "active",
    "age_verified": true,
    "email_verified": true,
    "phone": "+1-555-0123",
    "address": "123 Main St, San Francisco, CA",
    "created_at": "2026-04-01T10:00:00Z",
    "updated_at": "2026-05-17T14:30:00Z",
    "last_login": "2026-05-17T14:30:00Z",
    "login_count": 87,
    "campaigns_created": 12,
    "total_spend": 4250.50,
    "rewards_earned": 250.75,
    "flags": {
      "suspected_fraud": false,
      "suspended": false,
      "compliance_review": false
    }
  }
}
```

Create User (Bulk Invite)

POST /api/v1/users/bulk-invite

Request:

```
{
  "users": [
    {
      "email": "newuser1@company.com",
      "full_name": "New User One",
      "role": "advertiser",
      "send_invite": true
    },
    {
      "email": "newuser2@company.com",
      "full_name": "New User Two",
      "role": "campaign_manager",
      "send_invite": true
    }
  ]
}
```

Response:

```
{
  "success": true,
  "data": {
    "invited": 2,
    "failed": 0,
    "results": [
      {
        "email": "newuser1@company.com",
        "user_id": "user_999",
        "status": "pending",
        "invite_sent": true
      }
    ]
  }
}
```

Suspend a User Account

PATCH /api/v1/users/user_123

Request:

```
{
  "status": "suspended",
  "suspension_reason": "Suspected fraud activity"
}
```

The user can no longer log in. Their campaigns remain but are paused.

Reactivate a Suspended User

PATCH /api/v1/users/user_123

Request:

```
{
  "status": "active"
}
```

Reset User Password

POST /api/v1/users/user_123/reset-password

Response:

```
{
  "success": true,
  "data": {
    "reset_link": "https://adplatform.example.com/auth/reset?token=abc123...",
    "expires_in_hours": 24
  }
}
```

Share the reset link with the user via email.

Delete User Account

```
DELETE /api/v1/users/user_123
```

Parameters:

```
?delete_data=true # Also delete all associated data (campaigns, events, etc.)
?delete_data=false # Keep archived data for compliance
```

Caution: This is permanent. User's data is anonymized in logs but removed from active systems.

View User Activity

```
GET /api/v1/users/user_123/activity?days=30
```

Response:

```
{
  "success": true,
  "data": {
    "user_id": "user_123",
    "period": "Last 30 days",
    "total_actions": 145,
    "actions": [
      {
        "timestamp": "2026-05-17T14:30:00Z",
        "action": "campaign.created",
        "details": "Created campaign 'Summer Sale'",
        "ip_address": "203.0.113.45",
        "user_agent": "Mozilla/5.0..."
      },
      {
        "timestamp": "2026-05-17T13:00:00Z",
        "action": "campaign.updated",
        "details": "Updated budget to $5,000",
        "ip_address": "203.0.113.45"
      }
    ]
  }
}
```

Team & Role Management

Team Roles

Role	Permissions	Use Case
Admin	Full platform access	Platform administrators
Campaign Manager	Create/edit campaigns, view analytics	Team leads managing multiple campaigns
Analyst	View campaigns and analytics (read-only)	Data analysts, report generators

Viewer	View campaigns only (read-only)	Executives, stakeholders
Support	Edit user accounts, reset passwords	Customer support team

Invite Team Member

Dashboard: Admin → **Teams** → **Invite Member**

Or via API:

```
POST /api/v1/teams/invite
```

Request:

```
{
  "email": "colleague@company.com",
  "role": "campaign_manager",
  "permissions": [
    "campaigns:read",
    "campaigns:write",
    "analytics:read",
    "team:read"
  ]
}
```

Response:

```
{
  "success": true,
  "data": {
    "invite_id": "inv_123",
    "email": "colleague@company.com",
    "role": "campaign_manager",
    "status": "pending",
    "invite_url": "https://adplatform.example.com/auth/accept-invite?token=abc123",
    "expires_at": "2026-05-24T10:30:00Z"
  }
}
```

The user receives an email with a link to join.

List Team Members

```
GET /api/v1/teams?page=1&limit=50
```

Response:

```
{
  "success": true,
  "data": [
    {
      "member_id": "tm_123",
      "user_id": "user_999",
      "email": "colleague@company.com",
      "full_name": "Colleague Name",
      "role": "campaign_manager",
      "status": "active",
      "joined_at": "2026-04-01T10:00:00Z",
      "last_active": "2026-05-17T14:30:00Z"
    }
  ]
}
```

Update Member Role

```
PATCH /api/v1/teams/tm_123
```

Request:

```
{
  "role": "analyst"
}
```

Remove Team Member

```
DELETE /api/v1/teams/tm_123
```

The member loses access immediately. Their past actions remain in audit logs.

View Pending Invitations

```
GET /api/v1/teams/invites?status=pending
```

Resend Invitation

```
POST /api/v1/teams/invites/inv_123/resend
```

Revoke Invitation

```
DELETE /api/v1/teams/invites/inv_123
```

Organization Settings

Get Organization Profile

```
GET /api/v1/organizations/current
```

Response:

```
{
  "success": true,
  "data": {
    "organization_id": "org_123",
    "name": "My Company",
    "industry": "E-commerce",
    "size": "1-100",
    "country": "US",
    "website": "https://mycompany.com",
    "tax_id": "12-3456789",
    "contact_email": "admin@mycompany.com",
    "billing_email": "billing@mycompany.com",
    "timezone": "America/Los_Angeles",
    "language": "en",
    "created_at": "2026-01-01T00:00:00Z"
  }
}
```

Update Organization Settings

```
PATCH /api/v1/organizations/current
```

Request:

```
{
  "name": "My Company Inc.",
  "timezone": "UTC",
  "language": "en",
  "billing_email": "new-billing@mycompany.com"
}
```

Data Retention Policy

```
GET /api/v1/organizations/current/settings
```

Response:

```
{
  "data_retention": {
    "event_logs_retention_days": 365,
    "audit_logs_retention_days": 1825,
    "user_data_retention_days": "indefinite",
    "auto_delete_inactive_users": true,
    "inactive_days_threshold": 365
  }
}
```

Modify retention policies:

```
PATCH /api/v1/organizations/current/settings
```

```
{
  "data_retention": {
    "event_logs_retention_days": 730,
    "auto_delete_inactive_users": true,
    "inactive_days_threshold": 180
  }
}
```

Privacy Compliance Settings

PATCH /api/v1/organizations/current/compliance

Request:

```
{
  "gdpr_compliant": true,
  "ccpa_compliant": true,
  "dpa_signed": true,
  "processor_agreement_signed": true,
  "privacy_policy_url": "https://mycompany.com/privacy"
}
```

Audit & Compliance Logging

View Audit Logs

Dashboard: Admin → **Audit Logs**

Or via API:

GET /api/v1/audit-logs?page=1&limit=50&days=30

Response:

```
{
  "success": true,
  "data": [
    {
      "log_id": "audit_123",
      "timestamp": "2026-05-17T14:30:00Z",
      "actor": {
        "user_id": "user_999",
        "email": "colleague@company.com",
        "role": "campaign_manager"
      },
      "action": "campaign.created",
      "resource": {
        "type": "campaign",
        "id": "camp_456",
        "name": "Summer Sale"
      },
      "changes": {
```

```
{
  "before": null,
  "after": {
    "name": "Summer Sale",
    "budget_total": 5000,
    "status": "DRAFT"
  },
  "ip_address": "203.0.113.45",
  "user_agent": "Mozilla/5.0...",
  "status": "success"
},
{
  "log_id": "audit_124",
  "timestamp": "2026-05-17T14:00:00Z",
  "actor": {
    "user_id": "user_123",
    "email": "admin@company.com",
    "role": "admin"
  },
  "action": "team.member_invited",
  "resource": {
    "type": "team",
    "id": "tm_123"
  },
  "details": {
    "invited_email": "newuser@company.com",
    "role": "campaign_manager"
  },
  "status": "success"
}
],
"pagination": {
  "total": 1542,
  "page": 1,
  "limit": 50,
  "pages": 31
}
}
```

Filter Audit Logs

```
# By action type
GET /api/v1/audit-logs?action=campaign.updated

# By user
GET /api/v1/audit-logs?user_id=user_123

# By date range
GET /api/v1/audit-logs?start_date=2026-05-01&end_date=2026-05-31

# By resource
GET /api/v1/audit-logs?resource_type=campaign&resource_id=camp_456
```

Export Audit Logs (Compliance)

```
GET /api/v1/audit-logs/export?format=csv&start_date=2026-01-01&end_date=2026-12-31
```

Formats:

- csv — For spreadsheets and analysis
- json — Structured data for systems
- pdf — Printable compliance report

Data Access Logs (GDPR Right to Know)

```
GET /api/v1/users/user_123/data-access-logs
```

View all times your data was accessed:

```
{
  "success": true,
  "data": [
    {
      "timestamp": "2026-05-17T14:30:00Z",
      "accessor": {
        "user_id": "user_999",
        "role": "support"
      },
      "action": "viewed_user_profile",
      "reason": "Password reset support"
    }
  ]
}
```

Anomaly Detection & Safety

View Fraud Flags

```
GET /api/v1/users?flagged=true
```

Shows users flagged for suspicious activity:

```
{
  "success": true,
  "data": [
    {
      "user_id": "user_bad",
      "email": "suspicious@example.com",
      "flags": {
        "suspected_fraud": true,
        "unusual_spending_pattern": true,
        "multiple_payment_methods": true,
        "vpn_detected": true
      },
      "flag_score": 85,
      "alert_date": "2026-05-17T10:00:00Z"
    }
  ]
}
```

Approve Flagged User

POST /api/v1/users/user_bad/approve-flag

Request:

```
{
  "reason": "Manual review completed; account is legitimate",
  "reviewer": "admin@company.com"
}
```

Suspend Flagged User

PATCH /api/v1/users/user_bad

Request:

```
{
  "status": "suspended",
  "suspension_reason": "Fraud suspected; under investigation"
}
```

Report System Anomalies

Monitor system health:

GET /api/v1/system/anomalies

Response:

```
{
  "success": true,
  "data": {
    "alerts": [
      {
        "id": "anom_001",
        "type": "high_failure_rate",
        "severity": "warning",
        "description": "API error rate elevated to 2.5% (normal: 0.5%)",
        "timestamp": "2026-05-17T14:00:00Z",
        "component": "campaign-creation-service",
        "status": "active"
      }
    ]
  }
}
```

System Notifications & Alerts

Configure Alert Rules

```
POST /api/v1/admin/alerts/rules
```

Request:

```
{
  "name": "High Fraud Score Alert",
  "condition": "user_fraud_score > 80",
  "action": "send_to_slack",
  "channel": "#fraud-alerts",
  "enabled": true
}
```

Alert Types

Alert	Trigger	Action
Fraud Detected	User fraud score > 80	Notify support team
High Error Rate	API errors > 5%	Page on-call engineer
Payment Failed	Payment processing error	Notify user + admin
Campaign Overspend	Spend exceeds budget by 10%+	Auto-pause campaign, notify advertiser
Unusual Activity	10x normal API calls in 1 hour	Rate-limit, flag for review
Data Breach Attempt	SQL injection or XSS detected	Log, block, notify security team

View Alert History

```
GET /api/v1/admin/alerts/history?days=30
```

Account Billing & Usage

View Billing Summary

```
GET /api/v1/billing/overview
```

Response:

```
{
  "success": true,
  "data": {
    "current_plan": "pro",
    "monthly_fee": 299,
    "next_billing_date": "2026-06-17",
    "usage": {
      "api_calls": {
        "limit": 100000,
        "used": 45000,
        "percentage": 45
      },
      "events_tracked": {
        "limit": 1000000,
        "used": 750000,
        "percentage": 75
      },
      "storage_gb": {
        "limit": 100,
        "used": 65.5,
        "percentage": 65
      },
      "team_members": {
        "limit": 50,
        "used": 12,
        "percentage": 24
      }
    },
    "estimated_overage_charges": 0
  }
}
```

View Invoice History

```
GET /api/v1/billing/invoices?page=1&limit=12
```

Download Invoice

```
GET /api/v1/billing/invoices/inv_123/download
```

Update Billing Address

```
PATCH /api/v1/billing/address
```

Request:

```
{
  "company_name": "My Company Inc.",
  "street": "123 Main St",
  "city": "San Francisco",
  "state": "CA",
  "zip": "94102",
  "country": "US",
  "tax_id": "12-3456789"
}
```

Upgrade/Downgrade Plan

PATCH /api/v1/billing/plan

Request:

```
{
  "plan": "enterprise"
}
```

Add Payment Method

POST /api/v1/billing/payment-methods

Request:

```
{
  "type": "card",
  "card": {
    "number": "4242424242424242",
    "exp_month": 12,
    "exp_year": 2026,
    "cvc": "314"
  }
}
```

Security & Access Control

Manage API Keys

GET /api/v1/admin/api-keys

Response:

```
{
  "success": true,
  "data": [
    {
      "key_id": "key_123",
      "name": "Integration with Analytics Platform",
      "key_prefix": "sk_live_abc123...",
      "created_at": "2026-01-01T00:00:00Z",
      "last_used": "2026-05-17T14:30:00Z",
      "scopes": ["campaigns:read", "analytics:read"],
      "ip_whitelist": ["203.0.113.0/24"],
      "status": "active"
    }
  ]
}
```

Create API Key

POST /api/v1/admin/api-keys

Request:

```
{
  "name": "My Integration",
  "scopes": ["campaigns:read", "analytics:read", "events:write"],
  "ip_whitelist": ["203.0.113.0/24"],
  "rate_limit": 1000
}
```

Revoke API Key

DELETE /api/v1/admin/api-keys/key_123

View IP Whitelist

GET /api/v1/admin/security/ip-whitelist

Add IP to Whitelist

POST /api/v1/admin/security/ip-whitelist

Request:

```
{
  "ip_address": "203.0.113.45",
  "description": "Office network"
}
```

Enable Two-Factor Authentication (2FA)

POST /api/v1/admin/security/2fa/enable

Response:

```
{
  "success": true,
  "data": {
    "qr_code": "data:image/png;base64...",
    "secret": "JBSWY3DPEBLW64TMMQ...",
    "backup_codes": [
      "1234-5678",
      "2345-6789"
    ]
  }
}
```

API Reference for Admins

User Management

Endpoint	Method	Description
/api/v1/users	GET	List all users (paginated)
/api/v1/users/:userId	GET	Get user details
/api/v1/users/bulk-invite	POST	Invite multiple users
/api/v1/users/:userId	PATCH	Update user (status, role)
/api/v1/users/:userId	DELETE	Delete user account
/api/v1/users/:userId/reset-password	POST	Send password reset link
/api/v1/users/:userId/activity	GET	View user activity

Team Management

Endpoint	Method	Description
/api/v1/teams	GET	List team members
/api/v1/teams/invite	POST	Invite team member
/api/v1/teams/:memberId	PATCH	Update member role
/api/v1/teams/:memberId	DELETE	Remove team member
/api/v1/teams/invites	GET	List pending invites

Organization

Endpoint	Method	Description
/api/v1/organizations/current	GET	Get org profile
/api/v1/organizations/current	PATCH	Update org settings
/api/v1/organizations/current/settings	GET	Get detailed settings
/api/v1/organizations/current/compliance	PATCH	Update compliance settings

Audit & Logs

Endpoint	Method	Description
/api/v1/audit-logs	GET	List audit logs
/api/v1/audit-logs/export	GET	Export logs (CSV/JSON/PDF)
/api/v1/users/:userId/data-access-logs	GET	View data access history

Billing

Endpoint	Method	Description
/api/v1/billing/overview	GET	Billing summary & usage
/api/v1/billing/invoices	GET	List invoices
/api/v1/billing/invoices/:invoiceId/download	GET	Download invoice
/api/v1/billing/address	PATCH	Update billing address
/api/v1/billing/plan	PATCH	Change plan

Security

Endpoint	Method	Description
/api/v1/admin/api-keys	GET	List API keys
/api/v1/admin/api-keys	POST	Create API key
/api/v1/admin/api-keys/:keyId	DELETE	Revoke API key
/api/v1/admin/security/ip-whitelist	GET	List IP whitelist
/api/v1/admin/security/ip-whitelist	POST	Add IP

Troubleshooting

Issue: User Can't Log In

Possible Causes:

1. Account suspended
2. Email not verified
3. Password reset needed

Solution:

```
# Check account status
curl -X GET https://adplatform.example.com/api/v1/users/user_123 \
  -H "Authorization: Bearer ADMIN_TOKEN"

# Check if suspended
# If yes, activate:
curl -X PATCH https://adplatform.example.com/api/v1/users/user_123 \
  -H "Authorization: Bearer ADMIN_TOKEN" \
  -H "Content-Type: application/json" \
  -d '{"status": "active"}'

# Send password reset
curl -X POST https://adplatform.example.com/api/v1/users/user_123/reset-password \
  -H "Authorization: Bearer ADMIN_TOKEN"
```

Issue: Team Member Invitation Not Received

Possible Causes:

1. Email address typo

2. Email in spam folder
3. Invite token expired

Solution:

1. Verify email address is correct
2. Resend invitation:

```
curl -X POST https://adplatform.example.com/api/v1/teams/invites/inv_123/resend \
-H "Authorization: Bearer ADMIN_TOKEN"
```

Issue: Audit Logs Not Showing

Possible Causes:

1. Logs not yet flushed to disk
2. Date range doesn't include events
3. Permission issue

Solution:

```
# Force log sync
curl -X POST https://adplatform.example.com/api/v1/admin/sync-logs \
-H "Authorization: Bearer ADMIN_TOKEN"

# Check with wider date range
curl -X GET "https://adplatform.example.com/api/v1/audit-logs?days=90" \
-H "Authorization: Bearer ADMIN_TOKEN"
```

Issue: High API Usage/Billing Surprise

Possible Causes:

1. Webhook retry loops
2. Script calling API in a loop
3. Integration bug causing duplicate calls

Solution:

```
# Check API call patterns
curl -X GET "https://adplatform.example.com/api/v1/billing/usage-details?period=hourly" \
-H "Authorization: Bearer ADMIN_TOKEN"

# Identify top API consumers
curl -X GET "https://adplatform.example.com/api/v1/admin/usage-by-endpoint" \
-H "Authorization: Bearer ADMIN_TOKEN"

# Temporarily rate-limit endpoints causing overage
```

Issue: Fraudulent Account Activity

Possible Causes:

1. Compromised credentials

2. Malicious actor accessing account
3. False positive detection

Solution:

```
# Suspend account immediately
curl -X PATCH https://adplatform.example.com/api/v1/users/user_bad \
-H "Authorization: Bearer ADMIN_TOKEN" \
-H "Content-Type: application/json" \
-d '{
  "status": "suspended",
  "suspension_reason": "Fraud investigation: unusual activity detected"
}'

# Review activity logs
curl -X GET https://adplatform.example.com/api/v1/users/user_bad/activity?days=7 \
-H "Authorization: Bearer ADMIN_TOKEN"

# If legitimate, reactivate and enforce password reset
curl -X POST https://adplatform.example.com/api/v1/users/user_bad/reset-password \
-H "Authorization: Bearer ADMIN_TOKEN"
```

Best Practices

Security

1. **Rotate API Keys** — Every 90 days
2. **Enable IP Whitelist** — Restrict API key usage to known IPs
3. **Monitor Audit Logs** — Review daily for suspicious activity
4. **Use 2FA** — Enable two-factor authentication for all admins
5. **Least Privilege** — Only grant roles with permissions needed

Compliance

1. **Document Access** — Log all data access in audit trail
2. **Retention Policy** — Set data retention per legal requirements
3. **Data Deletion** — Honor user deletion requests within 30 days
4. **DPA Signed** — Ensure Data Processing Agreement is signed
5. **Privacy Policy** — Publish and keep updated

Operational

1. **Backup Audit Logs** — Export monthly for archival
2. **Monitor Billing** — Review monthly invoices for anomalies
3. **Team Training** — Educate team on data handling and compliance
4. **Incident Response** — Have plan for breach or system failure
5. **Communication** — Keep users informed of outages and changes
